

10 STEPS FOR UKRAINE'S ECONOMIC RECOVERY AND GROWTH 2021

1

Protect the population from COVID-19 by ensuring wide-scale testing, vaccination, and effective treatment. Secure predictability for doing business under quarantine restrictions.

2

Implement real and effective judicial reform, rule of law, fair justice, eradicate corruption, ensure a transparent selection of judges of all levels.

3

Ensure macroeconomic stability, an independent central bank and continued cooperation with the IMF.

4

Guarantee a fair, equal, predictable, and transparent tax policy, fair competition by decreasing the shadow economy and implementing country-wide digitalization.

5

Secure investment and property rights, establish level playing fields by eliminating oligarch control who invent preferences for their businesses. Introduce proper IPR enforcement and land reform implementation.

6

Increase governmental spending on value-based healthcare (targeting 5% of GDP) and improve healthcare procurement efficiency.

7

Ensure export promotion and improve trade facilitation, including proper implementation of Authorized Economic Operators Institute and further improvement of Single Window for import-export operations.

8

Develop vital infrastructure through the involvement of the private sector to attract investments and promote growth.

9

Reform state-owned enterprises, state-owned banks and implement transparent privatization. Develop capital market infrastructure.

10

Drive Ukraine's energy independence with a fully liberalized energy market. Ensure predictability of the regulatory environment for investors.
