

Dear Ladies and Gentlemen,

With the beginning of the full-scale invasion of Russia on the territory of Ukraine, our team, a Non-Government Organization "Family Garden", sought to help the people of Ukraine in their fight against the enemy and the consequences of military operations. United by a common desire to have a home in the form of a country, we initiated a social project with the main aim to provide quality housing for Ukrainian people who lost their home in the war.

- People to be the masters at their land

What is the value of the project:
